How Biostim Powder Works:

- Assists in controlling and rectifying nutrient imbalances within the water column.
- Polishes water and removes floating nasties.
- Super concentrated formula supports the water body's ecosystem.
- 100% Natural.
- Completely fish friendly and aquatic life safe.

Biostim Powder

Biostim Powder can be used for both spot treating and full dosing and supports your water body's natural ability to fight off attacks from algae and other unwanted invaders.
