

Weighted Air Hose

An idea air supply tubing for pond and lake self sinking, non-kinking installation

It is made from a thick walled PVC with some flexibility, suitable for any aquatic environment such as freshwater, salt water, wastewater or retention ponds.

Good weather resistance even in cold weather. Available in 3/8", 5/8", 1/2", 3/4" and 1" for a wide variety of aeration systems from small pond to large lake.
